3Di Technologies Awarded GSA Schedule

VIENNA, Va.—January 8, 2009—Congratulations to 3Di Technologies for the award of their GSA IT Schedule 70. Centre Consulting Inc worked with 3Di Technologies to establish appropriate prices for information technology products and services and negotiate the award of their GSA Schedule contract on November 14, 2009. 3Di Technologies specializes in solutions addressing a broad communications spectrum, from VSAT systems to applications that integrate with satellite systems, including enterprise-level Voice over IP, land mobile radio (LMR), and distributed video. 3Di provides satellite communications services to a variety of Department of Defense, US Government, OGA (Other Government Agencies), State and Local as well as commercial customers.

The IT Schedule 70 was established by GSA to assist federal government agencies with their procurement of IT and telecommunication products, services and solutions to meet their agency IT missions. Obtaining this GSA schedule will allow 3Di to bid on IT requirements that are only posted on E-Buy, GSA's electronic procurement system. Federal buyers enjoy the ease of using E-Buy since all terms of the GSA Schedule contract have been prenegotiated.

About Centre Consulting, Inc.

Centre Consulting, Inc., offers expert GSA Schedule consulting, training, federal market analysis and legal advice on all aspects of government contracting, including acquisition support, compliance and proposal support. Centre's Federal Compliance practice group employs a team of highly experienced lawyers to assess client compliance systems, advise on acquisition issues and implement effective protective measures. Through our Federal Marketing and Proposal practice group we provide advice and hands on assistance to enable our clients to identify and successfully pursue appropriate federal contracting opportunities, obtain appropriate contract vehicles, prepare effective proposals and execute contract capture opportunities. Our GSA Contracting & Schedules practice group leverages our legal and contracting expertise to provide clients with exceptional expertise in performing detailed cost and pricing analysis to support rational pricing of Schedule offerings and respond to compliance reviews and OIG audits of Schedules contracts. Centre's Federal Contracting Institute offers a full range of federal contracts and acquisition training services in-house or through public seminar offerings. Centre is the only company that offers integrated training, legal, and consulting support. Centre provides results that work the first time around, while also providing total outsourced contracts management solutions to government and industry, allowing clients to focus on core objectives. Centre is a small, woman owned business located in Vienna, Virginia.
